

Concierge Home Services From Start to Finish

## WORKING WITH US

Roof replacement is a major reconstruction project. While we are able to complete most re-roofs with accuracy and care in one day, larger more complex projects may require more time and attention to details. In order to prepare for your new roof here are a few reminders to ensure your job is off to a good start.

## PLAN FOR THE DAY

**DAY OF INSTALL:** On the day of installation you do not need to be home.

**DO YOU NEED INSIDE?:** We will NOT need access inside your home for any reason!

**START TIME:** The roofing crew will arrive around 7:00A.M. They will start by staging ground tarps to protect around your house.

**IT IS GOING TO BE LOUD THE ENTIRE DAY!**

**PLEASE PLAN ACCORDINGLY:** If you have infants or small children its going to be disruptive. If you work from home, this may cause you interruptions.

## DID YOU KNOW?

The average roof replacement consists of over 25,000 nails!

We always do our best to make sure we don't leave anything behind, but please keep an eye out!

## HOW TO PREPARE

**MOVE CARS:** Most likely your materials will be loaded on your roof. Prior to your delivery please remember to have your vehicles moved, so the roof is accessible, on the date of delivery.

**MOVE CARS AGAIN:** On the day of installation you will also need to have your cars removed from the garage and the drive way. This will provide access for our trailer for debris removal, while we tear off your roof.

**PROTECT VALUABLES:** If you have any valuables in your garage, or attic you will want to cover them as some debris may fall. In addition please make sure to remove any valuables from your walls.

**MOW LAWN:** If your able to mow your lawn, we always recommend doing so, as it will make nails more visible.

**BOARD PETS:** Your furry family members are important to us! We offer boarding free of charge to you, during your roof replacement. Ask us for more details.

**POWER OUTLET:** If you do not have an exterior outlet, please leave an extension cord plugged in as the crew may need to plug in power tools..

Our team brings the perfect combination of exceptional artistry with personalized concierge service, allowing our clients to experience the highest standard in professional home services from start to finish.
